SUMMARY

Product-minded full-stack engineer with a passion for building polished, accessible web applications. Experienced in leading design systems and driving performance at scale. Enjoy turning ambiguous requirements into delightful user experiences and mentoring junior developers.

EXPERIENCE

Senior Frontend Engineer

2022 – Present

Stripe

San Francisco, USA

- Lead the design system team, driving adoption across 40+ product squads and establishing governance for component standards.
- Shipped a new component library used by 200+ engineers, reducing UI inconsistency tickets by 60%.
- Optimized core checkout flows, improving Lighthouse performance scores from 62 to 94 across key landing pages.
- Mentored 4 junior engineers through structured onboarding and weekly pair programming sessions.

Full-Stack Developer

2019 – 2022

Notion

- Built features across the web and desktop clients for a productivity platform used by millions of users.
- Implemented real-time collaborative editing features using CRDTs and WebSockets.
- Reduced bundle size by 30% through code splitting and lazy loading strategies.
- Collaborated with designers to ship accessibility improvements achieving WCAG 2.1 AA compliance.

EDUCATION

University of California, Berkeley

Berkeley, CA

Bachelor of Science in Computer Science, GPA: 3.9/4.0

2015 – 2019

- Graduated with honors. Focused on human-computer interaction and distributed systems.
- Teaching Assistant for CS 61A and CS 160.

ACHIEVEMENTS

Best Developer Experience Award | *Stripe Internal Hackathon 2023*

- Built a CLI tool that reduced local setup time from 2 hours to 12 minutes.

Open Source Maintainer | *shadcn/ui*

- Contributed 15+ accessible primitives used by 50k+ projects.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Rust, SQL (PostgreSQL)

Frameworks: React, Next.js, Node.js, Tailwind CSS

Tools: Git, Docker, GraphQL, Figma

Specialties: Design Systems, Core Web Vitals, Accessibility (WCAG 2.1 AA), Performance Optimization
